### Monthly Report for March 16<sup>th</sup>, 2026 Common Council Meeting

Arcadis has completed their 2025 Landfill Monitoring Report for the closed City owned landfill on Fulton Street Extension outside of the City. This report contains all additional EPA required information being that 2025 was a 5 year review year for the site. Overall the site remains in good condition with the biggest change being the NYSDEC required underground gas monitoring wells that were installed on the site in 2025, and the additional wells that will be installed this year as required by NYSDEC. Arcadis also completed the first quarter inspection of the site for 2026 and we are awaiting the results from this inspection.

As the winter season ends our salt supply has remained in a good condition and unlike last year we should have a good stockpile to begin the next winter season. Despite some of the warmer days we have had winter storms during this time of year are not unprecedented and we want to remind residents that snow removal requirements are still in effect for spring storms. This includes the requirement to remove snow from sidewalks should we get any additional weather. We also encourage residents to pay attention to the condition of their driveways and sidewalks as the warmer temperatures during the day creates snow melt and wet conditions that can freeze when temperatures drop overnight which can create slip and fall hazards for pedestrians. Also as a reminder throwing snow in the streets to try to get it to melt faster is illegal and will be reported to law enforcement if observed.

It should also be noted that the City will be reviewing multiple code related issues that my office is involved with including snow removal, mowing, and garbage. Residents and property owners are encouraged to pay attention as these codes and their enforcement will be changing in the coming months.

Upcoming dates to remember as the weather warms up. The plan is to open the residential brush drop off located on W. Main Street and Cayadutta Street on April 1 as long as the weather permits it. Curb side brush collection will begin tentatively the week of April 6<sup>th</sup> again weather permitting. Please note that brush cannot be put out for collection prior to the weekend before collection starts. Any brush that residents or property owners collect prior to this date needs to be stored elsewhere on their property on not on the terrace area until the weekend before collection begins. Any brush that is put in the terrace area before this time may result in property owners receiving violation notices. At no time is brush to be placed within the roadway. This is also a illegal and will result in the property owner receiving a violation notice along with any associated penalties.

We continue to work on preparing the demolition of 2-10 S. Perry Street. We are working internally on the funding source. We have also met with both National Grid and Frontier over utility concerns that will need to be addressed prior to the demolition of the building. The sidewalk will remain closed in front of the building until the demolition is complete out of an abundance of caution for the safety of pedestrians traveling in the area. We are optimistic that we will have more details regarding the demolition work for the April council meeting.

DPW crews have been out and will continue to be out patching roadway damage from the winter season. We will continue to monitor and repair roadways as the winter related frost heaves begin to settle back out as we get into the spring season.

The street light replacement project has begun to pick up this week. Executive Electrical, Siemens' contractor for the work, has finally received a large shipment of materials and have been out attacking the street light replacements. To date approximately 25% of the lights have been replaced but this number will be increases rapidly now that material is on the ground. If there are street light issues please contact my office so we can pass these along to be corrected.

Respectfully Submitted,  
Christopher J. Vose City Engineer

**Johnstown Fire Department  
Monthly Report**

**Month of February 2026:**

Code enforcement officers, Fire, and EMS personnel continue in-service training.

**Fire Department Activity**

The Department responded to 226 calls for service.

## THE SHIRLEY J LUCK CENTER FOR 50+

Common Council Meeting  
March 16, 2026

In February, the Shirley J. Luck Center for 50+ had approximately 1160 people at the center. The membership has grown to 352 members plus 65 Lifetime members over the age of 90.

We had a good turnout for the “Meet and Greet” with our Mayor on February 25<sup>th</sup>. There were about 35 people enjoying the luncheon and getting their questions answered. Everyone seemed to be pleased to hear about all the good things going on in Johnstown.

Our “Family Breakfast Buffet” was held on Sunday, March 1<sup>st</sup> and was one of our best yet with 180 people from all over the community enjoying the breakfast. The center’s profit was \$1350 and the money goes towards our continuing improvements throughout the building.

Collette provides a great travel experience and the next trip is to Sequoia & Kings Canyon National Parks featuring San Diego and California’s Central Coast from October 14-23, 2026. On March 4<sup>th</sup> we had a representative from Collette here to talk about the Sequoia & Kings Canyon trip and the Grand Hawaiian Adventure in April 2027. You don’t have to be a member to go on these trips and we have flyers available with all the information.

Day trips are being planned and we currently have openings on all of them. We are going to Corning Glass Museum on 4/14, Adirondack Blue Mountain Lake Museum on 6/2, Lake George Theatre on 7/14, Log Cabin Restaurant for a Retro Rock and Roll Show on 8/11, and the State Fair on 9/1. Call the office or stop in to sign up or get more information.

The Spring Sale will be on May 8<sup>th</sup> & 9<sup>th</sup> and we are starting to take in donations on scheduled days beginning March 24<sup>th</sup>. We are looking for donations of items that are new or next to new that we can sell at the Spring Sale. It’s a good time of year to spring clean and we appreciate the donations. We will also have a basket raffle and bake sale during the sale.

Workforce Solutions is hosting a job fair at the center on March 19<sup>th</sup> from 10am – 12pm. There are at least 10 businesses attending with a variety of job openings. People should bring copies of their resume.

AARP is here on Wednesdays to provide free tax preparation for older adults from now through April 8<sup>th</sup>. We are currently booked up but you can get on the wait list by callin our office at 518-762-4643.

The next Defensive Driving Class will be held on Wednesday, April 22<sup>nd</sup> from 9:30a-3:30p. Class size is limited to 40 and the cost is \$25 for members of the center and \$35 for guests. The class is being taught by Frank Clemente and you will get a discount on your insurance for attending the class. The next class will be on May 27<sup>th</sup>.

Our newsletter, “The Eavesdropper”, has all the details on trips, classes and events. Check us out on Facebook or call the business office at 518-762-4643. Drive up and get a copy outside the business office hanging on the post, or come in and enjoy a warm cup of coffee and a snack.

Respectfully submitted,  
Diedrie Roemer  
Executive Director
